

NEWARK COMMUNITY PROJECT FOR PEOPLE WITH AIDS

Dear Mr. Hanley:

I thank you most appreciatively for your work on the articles of incorporation and your related efforts on behalf of the Newark Community Project for People with AIDS.

The articles of incorporation were presented at our last regularly scheduled meeting and, as I mentioned on the telephone, the only suggested change was for an additional incorporator:

Mr. Sherman Glasco
219 No. Clinton Street
East Orange, New Jersey 07017

In addition, the members present were puzzled about the use of the term 'trustee' in both the incorporation papers and the proposed by-laws (see enclosed). Hence, the members present asked me to convey to you their sincere desire for you to attend our next meeting.

We have deliberately not scheduled the next meeting in order to give us a chance to discuss with you optional dates most convenient for you. Also, I would move to have your discussion made the first order of business if that would enhance the convenience.

Generally speaking, the members expressed a desire to see the by-laws rendered a bit more flexible with more emphasis on open meetings. Perhaps, the membership as such needs to be defined and a small group of elected officers able to act between meetings of the membership (at least monthly).

At any rate, I shall call you shortly to seek an agreeable date.

With Warm Regards,

Derek T. Winans (ETD)
